

# ★ THE KENNETH BRIAN BAND ★

Kenneth Brian's modern blend of Southern Rock and Americana, built on timeless songwriting, gritty vocals, and powerful guitar playing, has earned him a devoted fan base and the respect of fellow musicians. His distinctive sound and electrifying live performances have drawn the attention of mentors and icons such as Lucinda Williams, Billy Gibbons (ZZ Top), and Steve Ferrone, Scott Thurston and Mike Campbell (Tom Petty and the Heartbreakers).

Lucinda Williams was so blown away by Kenneth's sound and memorable songs, after seeing him at The Roxy in West Hollywood, California, that she invited him and the band to join her on tour. They spent two years on the road with her, followed by dates with ZZ Top and several tours opening for Blackberry Smoke. In between opening for big acts, Kenneth also performs at many yearly festivals including Summerfest, Sturgis, and Daytona Bike Week as well as private venues and fundraisers, solidifying his reputation as a must see live act.

In 2022, Kenneth and the band released their latest album, 'Keys to the Kingdom', to strong acclaim. Then in 2025, they took their Southern sound overseas, performing shows across seven European countries. Playing to sold-out crowds filled with longtime fans singing along, the European tour marked a major milestone and built eager anticipation for their return in 2026. Kenneth is currently in the studio, working on his next album, to be released in 2026.

The Kenneth Brian Band captivates audiences with unforgettable performances marked by soulful vocals, soaring guitar tones, and a powerhouse rhythm section.

## WHAT THEY ARE SAYING:

"Some of the best songwriting I've heard in years."

- Grammy winning singer-songwriter Lucinda Williams

"The Kenneth Brian Band is one of the most badass bands out there. Their mixture of blues and rock reminds me of a cross between Lynyrd Skynyrd and Stevie Ray Vaughn. The band's powerful music combines lots of dirty guitar, bass and drums with relatable lyrics that reflect what life is really about."

- Grammy nominated musician Robert Randolph

"Just listened to 'With Lions'... and love it!!

I like music that puts me in a contemplative state of mind, and the song 'Pueblo Angel' is the perfect salve at the end of a very long day!"

- Emmy Nominated Actor Walton Goggins

"The past, present, and future of Southern Rock and Roll."

- The Gainesville Sun

"This guy is for real; you can hear it in the music, which delivers the same feeling of pride of The Allman Brothers Band and Lynyrd Skynyrd."

- Charleston Post & Courier

"Kenneth Brian pushes country rock music

to new boundaries." - Southern Oregon's Mail Tribune

"The Kenneth Brian Band demonstrated at Razzmatazz (Barcelona, Spain) that rock can still be an act of truth, a space for communion between those who play it and those who listen. In times of excess and prefabricated formulas, concerts like this are a reminder that music is still, above all, a way of being alive."
